D.O.No.20/3/2016-IPDS

11<sup>th</sup> November, 2016

*Dear Shri Jain*

As you are aware that IT system is being established in 1405 towns across the country under Part-A of R-APDRP. Under this effort, 21 Data Centers and 46 Centralized Single Window Customer Care Centers are being established for serving the Distribution Infrastructure of all States. Further, Ministry of Power has already approved the IT enablement of additional 2600 Urban towns under IPDS. These projects would leverage the existing DC/DR/CCC already established/being established under R-APDRP with incremental upgradation as per assessments of **As-is** and **To-be** requirements. The funding pattern for these projects shall be in accordance with IPDS Guidelines.

2. Given the imperatives of proper energy accounting, consumer satisfaction, and commitments of quality and reliability of power supply, these IT enablement projects are required to be implemented in a time bound manner. While the Ministry of Power has advised PFC to handhold States in this effort, you are requested to direct the concerned officials for preparation of the **As-is-Study** and **DPR** of all the non-RAPDRP eligible Urban towns (those included in Census 2011) and in your State propose to PFC for approval positively before the end of November, 2016.

3. As agreed in the Power Ministers' Conference the task is to be completed within the shortest possible time. Therefore I invite your personal indulgence in the issue to drive it fast.

*Kind regards*

Yours sincerely,

*Arun Kumar Verma*

(Arun Kumar Verma)
