17th April, 2017

To,

CMDs/MDs as per list attached

Sub: Upkeep of IT Enabled System created under R-APDRP (subsumed under IPDS) - regarding
Sir/Madam,

As you are aware that substantial amount of work has already been completed under R-APDRP Part-A (IT) with establishment of 20 Data Centers, 19 Disaster Recovery Centers, 40 Customer Care Centers and Go-live of 1346 /1405 eligible towns across the Country. The large scale IT enablement is being leveraged to capture data from across the country and place it in the public domain through MoP's URJA App. Further, 11KV feeder data from said towns is also ported on the Urban Online Feeder Monitoring System on the National Power Portal. With the objective of IT enablement across entire urban area in the country, funding for IT enablement has been approved in the balance additional towns under IPDS.

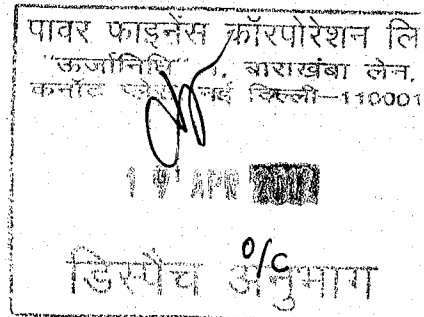

In order to make best use of the investments already made w.r.t. IT in your Discom and to get proper data from the IT system, it is imperative that the **system established is maintained by the Discom** in accordance with the following measures. Details of the same are available in the White Paper on 'Post Go-Live Requirements' already shared with Discoms.

- Annual Maintenance Contract/Technical Support for DC/DR/Towns' IT Hardware, Meters, Modems
- Validity of Software licenses
- Updation of GIS repository
- System upgradation, in case existing system unable to cater to additional consumers/assets
- Availability of required Bandwidth and maintenance of Network
- Formulation of Information Security Policy and regular Audit of the IT system.

An early action on this front shall go a long way to effectively contribute in accurate energy accounting on sustainable basis, which can be used as a tool for AT&C loss reduction and help in turnaround of the DISCOMs.

Thanking You,

Yours faithfully,

(Radhika Jha)
