Sub: Uploading of 11kV feeder data on urban feeder monitoring system of National Power Portal (NPP)

Ref : PFC letter 02:10:IPDS:2016:NPP dated 10/02/2017 on the subject

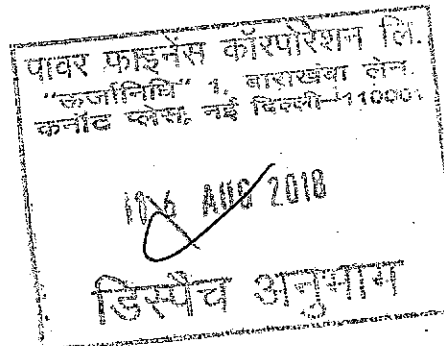

Sir,

As you are kindly aware, the online Urban feeder monitoring system on National Power Portal (NPP) is functional since Jan'2017 and more than 33,000 11kV feeders of the IT enabled towns are linked to the NPP. Further, Discoms are uploading the monthly report of 11kV feeders, primarily comprising of feeder-wise AT&C losses, SAIFI-SAIDI and consumer grievance redressal reports captured through the IT systems established in under IPDS (subsumed RAPDRP). Vide above referred letter PFC had requested Discoms to ensure updation of the feeder data on NPP on a regular basis, to ensure all meter & modems are functional and to take-up data sanitization so as to minimize abnormality in the data.

In this regard, we would like to draw your attention that your Discom has uploaded the 11kV feeder data on the NPP only upto the report due in **May'2018**. You would appreciate that continuity of data is utmost important for carrying out any analysis on the information so collected. Further, MoP is presenting awards to selected Feeder Managers based on month-on-month AT&C loss reduction, Revenue and Energy saving performance of the feeders using NPP data. In absence of data of consecutive months, Feeder Managers of your Discom are deprived of such opportunity. Therefore, we would once again request you to kindly direct the concerned officials to ensure regular updation of 11kV Feeder data of urban feeders on monthly basis.

Further, while submitting the DPRs under IPDS, Discoms have undertaken to ensure AMR based metering for all 11KV feeders in the urban towns. Therefore, we would also request you to ensure that all existing 11kV Feeders are linked to the NPP and any new feeders coming up in the towns may also be linked to National Power Portal.

Thanking you,

Yours faithfully,

Sub: Uploading of 11kV feeder data on urban feeder monitoring system of National Power Portal (NPP)

Ref : PFC letter 02:10:IPDS:2016:NPP dated 10/02/2017 on the subject

Sir,

As you are kindly aware, the online Urban feeder monitoring system on National Power Portal (NPP) is functional since Jan'2017 and more than 33,000 11kV feeders of the IT enabled towns are linked to the NPP. Further, Discoms are uploading the monthly report of 11kV feeders, primarily comprising of feeder-wise AT&C losses, SAIFI-SAIDI and consumer grievance redressal reports captured through the IT systems established in under IPDS (subsumed RAPDRP). Vide above referred letter PFC had requested Discoms to ensure updation of the feeder data on NPP on a regular basis, to ensure all meter & modems are functional and to take-up data sanitization so as to minimize abnormality in the data.

In this regard, we would like to draw your attention that your Discom has uploaded the 11kV feeder data on the NPP only upto the report due in **Apr'2018**. You would appreciate that continuity of data is utmost important for carrying out any analysis on the information so collected. Further, MoP is presenting awards to selected Feeder Managers based on month-on-month AT&C loss reduction, Revenue and Energy saving performance of the feeders using NPP data. In absence of data of consecutive months, Feeder Managers of your Discom are deprived of such opportunity. Therefore, we would once again request you to kindly direct the concerned officials to ensure regular updation of 11kV Feeder data of urban feeders on monthly basis.

Further, while submitting the DPRs under IPDS, Discoms have undertaken to ensure AMR based metering for all 11KV feeders in the urban towns. Therefore, we would also request you to ensure that all existing 11kV Feeders are linked to the NPP and any new feeders coming up in the towns may also be linked to National Power Portal.

Thanking you,

Yours faithfully,
